PROFILE

Software developer with 2 years of experience in frontend, backend, and mobile development, specialized in creating robust and scalable applications. With a solid knowledge of Angular, Flutter, Node.js, and SQL and NoSQL databases, I strive to apply development principles such as SOLID to maintain clean and efficient code. I seek to contribute to innovative projects where I can continue to grow professionally and provide high-impact technological solutions

EMPLOYMENT HISTORY

Dec 2022 – Aug 2024

Developer, Taruks Soluciones, SA de CV

- Creating and maintaining desktop applications with WPF. — Ciudad Obregón
